From March 6 through April 2, the Gene Siskel Film Center welcomes you to the 18th Annual European Union Film Festival, a colorful and diverse European escape from the Chicago winter. This largest showcase in North America for the cinema of the European Union nations presents Chicago premieres of 61 new feature films from 27 nations.

According to the tradition of our festival, the opening night is presided over by the nation currently holding the presidency of the European Union. On Friday, March 6, our host is Latvia’s Honorary Consul in Chicago, Robert Blumberg. Our opening film is the delightful feature-length animation THE GOLDEN HORSE, based on a Latvian folk tale, and suitable for all ages.

Festival guests include Austrian director Gustav Deutsch with SHIRLEY: VISIONS OF REALITY, inspired by the paintings of Edward Hopper, on March 27 and 28. Art Institute of Chicago Curator of American Art Judith Barter joins Deutsch for discussion on March 28 in a Movie Club event. Italian director Francesco Munzi will appear on March 14 to discuss his acclaimed crime saga BLACK SOULS, and Scottish director Anthony Baxter is tentatively scheduled to appear on March 29 with A DANGEROUS GAME.

For the third year in a row, we incorporate films from the Festival of New Spanish Cinema, curated and organized by Pragda and Spain Arts & Culture. Film historian Steven Marsh introduces a screening of MAGICAL GIRL on April 1. Additional guests are pending as we go to press. Visit our web site at www.siskelfilmcenter.org for updates and added events.

The festival closes on Thursday, April 2, with HOW STRANGE TO BE NAMED FEDERICO: SCOLA NARRATES FELLINI, a warm and nostalgic recollection of the Italian master tinged with fantasy, by his close friend and colleague. Closing night is dedicated to the memory of WFMT arts critic Andrew Patner. Receptions hosted by Whole Foods Market follow both the opening and closing night films.

The Gene Siskel Film Center thanks the consulates, the consuls general, and the cultural institutions of the European Union in Chicago, and their embassies in Washington, D.C., for their enthusiastic participation. We especially salute the efforts of all those who served as festival advisors.

—Martin Rubin

As digital technology has transformed every aspect of daily life, our conception of time, space, event, and document has transformed as well. We no longer look to authorized sources for the verification of events, and the speed at which we expect to see evidence has become virtually instantaneous. The portability and ubiquity of cameras has made every moment and place subject to our gaze, and every event subject to new conventions of scrutiny and truth. This series examines the ways film and video-makers have changed the conventions of non-fiction filmmaking through signal works produced during the digital turn of the last decade.
